DESITE BIM 3.0.9

March, 2nd 2023

Release Notes

IMPROVEMENTS & BUG FIXING:

- **Geometry**

  - #1757 - The option "copy/paste" in "Scale/Transform/Rotate items" did not considered all settings. This has been fixed.

  - #1394, #1857 - Performance of Clipping feature was not sufficient in case of bigger models. This has been fixed and improved

  - #1862 - In some cases DESITE crashed while using the 'Simplify object' command in Tools. This has been fixed.

- **Properties**

  - #1651 - The property 'cpName' can now not be empty (but still be changed).

- **Imports**

  - #1907 - Some properties in IFC files were not imported correctly into DESITE (e.g. property type 'IfcBoolean' was converted to 'xs:string'). This has been fixed.

- **Bill of Quantity**

  - #1867 - DESITE crashed in some cases after importing GEAB D86 file. This has been fixed
