Use Case 02: Exchange of Viewpoints

tpCDE Connect for DESITE BIM

Customer Benefits

- Convenient exchange of viewpoints between tpCDE and DESITE BIM without the need of downloading and uploading data saves significant time for users
- Further processing in the form of tickets and issues in tpCDE is facilitated

The screenshot displays the tpCDE Connect for DESITE BIM software interface. The main content area shows a project selection dropdown set to 'BIM-LiveTest'. Below this, there are tabs for 'Partial Models', 'Coordination Models', and '3D Viewpoints'. A search bar is present, and a table lists found partial models. The 'Related Viewpoint(s)' table is as follows:

Related Viewpoint(s)	Thumbnail	Comment	Apply
Home			16/12/2020 14:13:35
Connection New - Old		Please check	16/12/2020 14:15:17
Slide			16/12/2020 14:18:12
Dome			16/12/2020 14:36:59
Stairs		Check handrail!	16/12/2020 14:38:02

The 3D model on the right shows a building with a dome. A red circle and arrow highlight a specific area, with the text 'Please check connection!' next to it.
